

Icaro Gabriel Greinert - Bio

I have been actively involved in rescue challenges and training for over two decades, beginning with my formation at the Paraná Fire Department Academy in 1999. Since then, I have participated in, instructed, and assessed at numerous national and international rescue events.

My international experience includes serving as Brazilian Team Captain at the World Rescue Challenge in Portugal (2015) and England (2014), as well as acting as a Shadow Assessor at the World Rescue Challenge in Romania (2017) and France (2019). More recently, I contributed as Command Assessor at the World Rescue Challenge in the Azores, Portugal (2024).

In Brazil, I have played key roles as Command Assessor in multiple state challenges (Paraná, Santa Catarina, Rio de Janeiro, Minas Gerais, Espírito Santo), and as General Coordinator of several Brazilian National Challenges (2017, 2018, 2019). I have also served as an instructor at Rescue Days Brasil and the ABRES Assessor's Course, training and mentoring new generations of rescue professionals.

With a career spanning from participant to international assessor, my mission has been to strengthen rescue standards, promote knowledge sharing, and support the global rescue community through continuous learning and collaboration.
